Please read on for more information on the above holistic therapies.

INDIAN HEAD MASSAGE

Indian head massage is an ancient technique, which has been used for thousands of years by Indians. It was originally used to keep long hair thick and healthy and in beautiful condition. It involves working from the upper back, massaging the shoulders, neck, head, face and scalp. This is a wonderful treatment for people who have yet to experience the benefits of complimentary therapies.

REFLEXOLOGY

This is an ancient technique of applying gentle pressure to the soles of the feet to work on the body as whole. With reflexology each part of the body is represented in the foot, it is a very relaxing and deep treatment and can have wonderful effects. This treatment can be very beneficial for those who suffer from migraine, arthritis, and sciatica to name but a few conditions.
